## **Fiscal Year 2006 Statistical Update to the June 2005 Recommended Sentence Report**

Statistics are of offenders with new sentences received by the Missouri Department of Corrections in fiscal year 2006. These do not include sentences due to probation revocations or any other re-sentencing of offenders. Most of the tables and charts were included in the June 2005 Recommended Sentence Report study of sentencing disparity (pages 56 to 66).

Note, for the tables on prison sentences, life sentences are included and computed at 30 years.

The tables are also available in an Excel spreadsheet from the Missouri Sentencing Advisory Commission website (<http://www.mosac.mo.gov/>) under the System of Recommended Sentencing section.

Any additional data requests can be made through Julie Upschulte at Missouri Sentencing Advisory Commission or through Missouri Department Of Corrections, Research and Evaluation Unit.
